Chih-Chen Chen, Ming Dao University, Taiwan
Ching-Hsin Wang, National Chinyi University of Technology, Taiwan
Ming-Lang Tseng, IICE, Asia University, Taiwan
Yuanhsu Lin, Ming Dao University, Taiwan
Tat Dat Bui, IICE, Asia University, Taiwan
Yeneneh Tamirat Negash, IICE, Asia University, Taiwan
Xiu-Yun Zhang, IICE, Asia University, Taiwan

The 22nd APIEMS conference (2022), the premier industrial engineering and management systems conference in the Asia Pacific region, will be hosted by the Asia University. It is the forum for exchange of ideas and discussion among leading experts from academia, industry, and government on the latest developments. It aims to seek opportunities for collaboration among the participants as well as to promote excellence among the fields. Papers will represent the latest academic thinking and successful case examples. The audience will benefit from the knowledge and experience from leading practitioners and academics in this area. The conference seeks research contributions from researchers, educators, modelers, software developers, users and practitioners

Theme: SUPPLY CHAIN DISRUPTIONS & SMART CIRCULAR RESOURCE MANAGEMENT

- IMPORTANT DATES -

- **Submission Deadline of Abstract: August 15, 2022 (Early bird: Student - 350USD, Regular - 450USD)**
- **Notification of Acceptance: September 01, 2022**

(MORE to be invited)

CONFERENCE TOPICS

Technical topics of the conference include but are not limited to:

Big Data Methodology and Application	Management of Technology and Innovation
Cloud Computing and Application	Management Science
Data Mining	Optimization Technique
Decision Modeling and and Expert System	Probability and Statistical Modeling
Demand Chain Management	Product Design and Development
E-business / Information Technology	Product Planning and Marketing
Engineering Economy	Productions and Operations Management
Enterprise Resource Planning	Purchasing/Procurement Management
Ergonomics/Human Factor and Financial Models	Quality Engineering and Management
Flexible Manufacturing System	Queueing Theory and Application
Fuzzy Logic	Reliability and Maintenance
Green Manufacturing/Management	Safety Engineering
Health Care System	Scheduling and Sequencing
Assistive Technologies for Employment	Service Science/Management
Human-Computer Interaction	Supply Chain Management
Industrial Engineering	Sustainable Management
Inventory Modeling and Management	Transportation
Knowledge and Information Management	Uncertainty Theory
Lean Manufacturing	Communication Support
Logistics Management	Tourism Management
Management Information System	

Publications

Excellent papers accepted and presented in this conference will be reviewed and recommended for publication in the SSCI/SCI journal special issues.
